

Calling all pupils at St Ambrose Catholic Primary School. Having just celebrated British Science week 8<sup>th</sup> -17<sup>th</sup> March 2019, I invite all of you to take part in an activity around the theme of 'journeys'.

You are invited to find out more about any scientific journey that interests you and present your research in a way of your own choosing: artwork, a model, drawing, writing, poster, photograph.

Please ask permission from your parent/carer before you attempt any science projects. Here are a few suggestions but you can think of your own:

Everyone who takes part will receive a certificate and your work will be displayed in school.

I look forward to seeing your project so that we can celebrate your scientific journeys in school on Thursday 11<sup>th</sup> April 2019.

Have fun learning

Alice Crumpler (Year 6 Teacher/Science Co-ordinator).
